AC7
-  **Operating panel frame:**
AL11
-  **Display:**
LCD
-  **Additional Entrance:**
-

COMMENTS

The image shows a 3D simulation of a lift car with the finishes defined using the MP CarDesigner tool, owned by MP Ascensores. This design tool is free to use, and it is available online at www.mpascensores.com/cardesigner and www.mpcardesigner.com. In addition to the options available using this tool, there are others not covered, such as additional mirror models or the location of the mirror and the operating panel on different panels. If you want more information about estimates, stock or customized finishes please contact MP Ascensores. The images of the finishes shown may differ slightly from the actual material.
